

## Recipe for Success

Welcome to your recovery from laser surgery!

## Ingredients

- A responsible adult to stay with you for 24 hours after anesthesia.
- A positive attitude!

## Directions

You will go home with a dressing covering your face that must stay on for 7 days. You may blot any drainage that seeps out of the dressing. Do not remove any of the dressing.

After 7 days, the dressing will be removed in the office. You will then see the Aesthetician for a follow-up appointment.

You may shower after this appointment.

You will follow the recovery care for Sciton Laser Facial Procedure for days 1-7.
