## **BODYNEW MEDSPA PRESS RELEASE**

**SEPTEMBER 2010**

### **Restore Your Skin the Naturalfil™ way.**

A 20-minute procedure, with results lasting beyond 12 months!

Skin is affected by a multitude of factors, ranging from gravity and sun exposure to muscle movements. Naturalfil™ utilizes your biology and platelets to fill signs of aging such as skin depressions, acne scars, wrinkles, and folds.

#### ***The Unique Process***

1. A small vile of blood is collected to generate a sufficient sample.
2. The platelets and fibrin (proteins) are separated.
3. Conversion to Platelet Rich Fibrin Matrix (PRFM) occurs and the product can than be administered.
4. Can be utilized in conjunction with your own fat to create an even greater volume in the face.

#### ***Why is Naturalfil™ the Right Choice for You?***

In vitro studies have reported that platelet growth factors, which nurture collagen production and dermal matrix reconstruction, are released for up to seven days post-procedure.

This technique is a safe, healthy alternative to using artificial, plastic, or animal-derived materials, and provides long-lasting results within three weeks.

#### **About the BodyNew MedSpa:**

Leading the way in medical technology and treatments, BodyNew MedSpa has been at the forefront of medical aesthetics serving the Greater Phoenix Area. BodyNew MedSpa provides individual skin care regimens with one-on-one planning to give unique people with unique goals the specific support needed. At BodyNew MedSpa we will help uncover the most youthful, freshest and unique you possible.
